Underground (Square) 12' x 24' (288 ft<sup>2</sup>) Underground (Square) 14' x 28' (392 ft²) Underground (Square) 16' x 28' (448 ft<sup>2</sup>) Underground (Square) 16' x 32' (512 ft<sup>2</sup>) Underground (Square) 18' x 36' (648 ft<sup>2</sup>) Underground (Square) 19' x 34' (646 ft<sup>2</sup>) Underground (Square) 20' x 40' (800 ft<sup>2</sup>)

### NOTES

For each pool, the specified model keeps the pool water at 82°F (27.8°C), depending of the minimum ambient temperature. These values are an average and are provided for informational purposes only, for residential use. For freeform pools, refer to a pool of the same type (ground or above-ground) and of comparable size. Altitude, exposure of the wind pool, shading, falls and fountains as well as dry climate are all factors that may increase the heating capacity required. Please use our sizing form for these particular cases.

Quebec	Low Temp °C	Average Temp °C
May	5	11
June	11	16
July	13	19
August	12	18
September	7	13
